Total assets and UMA assets are supplemental information to the GIPS Composite Report.

While pitch books are updated quarterly to include composite performance through the most recent quarter, we use the GIPS Report that includes annual returns only. To minimize the risk of error we update the GIPS Report annually. This is typically updated by the end of the first quarter.

GIPS Report

The Focus Growth Composite created on January 1, 2006 with inception date April 1, 1992 contains fully discretionary large cap equity accounts that are not managed within a wrap fee structure and for comparison purposes is measured against the S&P 500 and the Russell 1000 Growth indices. Effective January 2022, fully discretionary large cap equity accounts managed as part of our Focus Growth strategy that adhere to the rules and regulations applicable to registered investment companies subject to the U.S. Investment Company Act of 1940 and the Polen Focus Growth Collective Investment Trust were included in the Focus Growth Composite.

The accounts comprising the portfolios are highly concentrated and are not constrained by EU diversification regulations.

Polen Capital Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Polen Capital Management has been independently verified for the **periods 1 Apr 1992 - 31 Dec 2025**. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Focus Growth Composite has had a performance examination for the periods 1 Apr 1992 - 31 Dec 2025. The verification and performance examination reports are available upon request.

Polen Capital Management is an independent registered investment adviser. Polen Capital Management maintains related entities which together invest exclusively in equity portfolios consisting of high-quality companies. A list of all composite and pooled fund investment strategies offered by the firm, with a description of each strategy, is available upon request. In July 2007, the firm was reorganized from an S-corporation into an LLC and changed names from Polen Capital Management, Inc. to Polen Capital Management, LLC.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Effective January 1, 2022, composite policy requires the temporary removal of any portfolio incurring a client initiated significant net cash inflow or outflow of 10% or greater of prior day's beginning market value, provided, however, if invoking this policy would result in all accounts being removed for a month, this policy shall not apply for that month.

From July 1, 2002 through April 30, 2016, composite policy required the temporary removal of any portfolio incurring a client initiated significant cash outflow of 10% or greater of portfolio assets. The temporary removal of such an account occurred at the beginning of the month in which the significant cash flow occurred and the account re-entered the composite the first full month after the cash flow. U.S. Dollar is the currency used to express performance. Certain accounts included in the composite may participate in a zero-commission program. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using either actual management fees or highest fees for fund structures. The annual composite dispersion presented is an asset-weighted standard deviation using returns presented gross of management fees calculated for the accounts in the composite the entire year. The three-year annualized ex-post standard deviation is not presented for periods in which the composite and/or benchmark does not have 36 monthly returns. If 5 or fewer portfolios exist in the composite for the entire year, annual composite dispersion appears as "N/A". Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The per annum all-in fee* schedule for managing the Polen Capital Focus Growth Fund, which is included in the Focus Growth Composite, goes up to 65 basis points (.65%). *The all-in fee (which is similar to a total expense ratio) includes all administrative and operational expenses of the fund as well as the Polen Capital management fee.

Past performance does not guarantee future results and future accuracy and profitable results cannot be guaranteed. Performance figures are presented gross and net of fees and have been calculated after the deduction of all transaction costs and commissions. Polen Capital is an SEC registered investment advisor and its investment advisory fees are described in its Form ADV Part 2A. The advisory fees will reduce clients' returns. The chart below depicts the effect of a 1% management fee on growth of one dollar over a 10 year period at 10% (9% after fees) and 20% (19% after fees) assumed rates of return.
