Management’s Discussion of Fund Performance

- For the 12 months ended April 30, 2026, the Polen International Growth Fund (the “Fund”) underperformed the MSCI All Country World® Index (“ACWI”)® ex US Index.
- Stock selection in the Information Technology sector was the primary detractor from results (largely stemming from Software exposures), though Financials, Consumer Discretionary, Health Care, and Industrials also represented notable headwinds.
- As for sector positioning (a residual of bottom-up stock selection), the overweight to Information Technology and to a lesser extent, Consumer Staples, were notable tailwinds for performance. This was modestly offset by the zero exposure to Energy and the overweights to Consumer Discretionary and Health Care.
- The top three relative stock detractors (vs. the MSCI ACWI ex US Index) were SAP, Sage Group, and Monday.com. Positive relative contributors were ASML Holding NV, Tokyo Electron, and ASM International.
